How to Use the Writing Lab for Fall 2020

1. Fill in the [Appointment Request Form](#) for each appointment request—this step is important so I can start helping you as soon as possible
2. Include assignment instructions and any drafts you have started by loading them into your Appointment Request Form
3. Allow a minimum of 1 to 2 days for response time; I will respond to Algoma U Gmail accounts only
4. Each class you have with each instructor will be different, including the online delivery of each course—be proactive and ask for help early in the semester from the Writing Lab, Math Lab, and/or Learning Centre
5. Keep in touch with your instructors
 - Emailing to check-in/alerting the instructor to any issues you are experiencing, participating in online discussions or posts, and asking questions or requesting Google Meetings (depending on the course) are all good strategies
